

A ST. LOUIS PARK LANDMARK

Oak Knoll Animal Hospital has been a St. Louis Park landmark for more than 25 years. While changes have occurred over the years, what has remained constant is the overwhelming spirit of compassion exhibited by the doctors and staff.

The medical staff at Oak Knoll is trained in the most current treatments available in veterinary medicine today. And they do it all with the same level of care that the clinic has always been known for. The clinic has a good working relationship with the network of veterinary medical and surgical specialists in the Twin Cities, ensuring the best possible care for your pet.

Oak Knoll Animal Hospital is St. Louis Park's best choice for state-of-the-art medical care combined with friendly compassionate service. We look forward to providing you and your pets with superior care.

MEET THE OWNERS

Dr. Jeremy Smith is a graduate of the University of Minnesota College of Veterinary Medicine. He earned a Bachelor of Science degree in Zoology from Iowa State University. He enjoys fishing, barbecuing and reading in his time away from the clinic. He also enjoys the company of his three legged cat, Miller.

Dr. Tracy Earl earned her Bachelor of Arts from St. Olaf College and her Doctorate from the University of Minnesota. Dr. Earl has taken particular interest in laser surgery. She currently owns two cats named Kitty and Zoe and enjoys rollerblading, gardening and home decorating in her spare time.

**Get the best care
for your pet.**

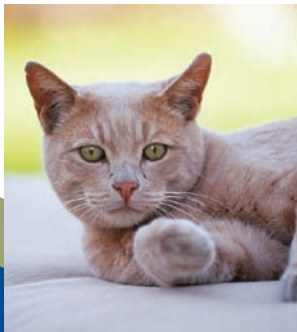

Thank you for choosing us as your veterinary care provider. At Oak Knoll, we strive to provide the most current veterinary wellness care as well as the information you need to maintain your pet's health day to day. In the event that your pet becomes ill, we have access to state-of-the-art diagnostic tools to help determine the best course of medical action.

MISSION STATEMENT

We will provide high quality veterinary care through wellness exams, state-of-the-art diagnostics and progressive medical and surgical therapies.

We are committed to maintaining a compassionate, knowledgeable, qualified staff and to increasing our clients' understanding of their pet's health.

Our in-house laboratory allows same day results on many blood and urine tests. Our radiology department is equipped to take full body x-rays and dental x-rays. We process our radiographs in house which provides immediate feedback on the health of your pet.

“**What makes
Oak Knoll
Animal Hospital
unique?**”

WELLNESS CARE

At each visit, your pet will be thoroughly examined by a veterinarian, to help determine whether he/she is healthy enough to receive vaccinations, and to reveal underlying medical problems early in the course of disease. The doctor will tailor a vaccine protocol that meets your pet's needs, and will answer questions you have about maintaining a healthy lifestyle for your pet.

LASER SURGERY

We utilize a CO₂ laser for many surgical procedures. The laser seals nerve endings and small blood vessels as it cuts. For your pet, this means less post-operative pain and bleeding. Your pet typically will return to normal activity more quickly after surgery.

DENTAL CARE

Oak Knoll is able to provide comprehensive dental services for your pet, as well as important information regarding at-home dental maintenance. Routine dental prophylaxis includes scaling, polishing and applying a sealant to your pet's teeth while he/she is under anesthesia. At that time, we will determine if there is a need for dental x-rays, we will apply an antibiotic gel to help prevent pockets at the gumline, and do any necessary tooth extractions.
